Organization and Administration

The greatest change in the organization of Londonderry schools was in the two room building at No. 2 School. In accord with a letter from the State Department of Education in which the following statement appears, "The present emergency class room in the front of the No. 2 school housing the upper grades, while a very satisfactory emergency room does not meet the reasonable requirements for a standard school in a suitable and sanitary building as required by Public Laws Chap. 17 Sect. I", it became necessary to remodel the building in a manner satisfactory to the State Department. In addition to submitting plans for the remodeling the State Aid to the district for the school year '42-'43 was increased over the Feb. 1942 estimate by \$1,024.24. The total bill for the remodeling was \$1,245.37

so that the new plant represents a direct charge to the district of \$221.13.

A well planned building which provided more adequate educational facilities for such an outlay is a fine addition to the educational plant of the district. The pupils have responded to their new surroundings with zest and enthusiasm. The pupil morale is at a new high pitch and the work of the school is proceeding well.

The grounds were graded with the cooperation of the selectmen and the entire set-up is a great improvement.

The usual cleaning and minor repairs were done at all schools during the summer. In order to protect furniture and books in storage all such materials are now stored at No. 3 school house. There were several reasons for this change. It facilitates providing extra materials in any emergency when the materials are all housed at the same place. It seemed advisable to use No. 3 schoolhouse for it was recently reshungled and was the soundest of the available storage facilities.

Several changes were noted in the teaching staff. Mrs. Ackerman, and Miss Grout accepted positions elsewhere and Mrs. Watts and Mrs. McCormack resigned. Old teachers were reassigned and four new teachers hired. Mrs. Harriet Cross who had been teaching at No. 8 was assigned to No. 1. Miss Violet Macauley was changed from No. 4 to No. 2.

Mrs. Martha Guinnesso of Derry Village, a graduate of Lowell Teachers' College with successful teaching experience in N. H. and Mass. was elected to teach at the No. 8 school.

Mrs. Lottie Bailey, a graduate of Fitchburg Normal School with many years of successful teaching in Massachusetts had substituted in the spring while Miss Grout was on leave of absence. On Miss Grout's resignation she was elected to the position.

Mrs. Helena Bogie, a graduate of Plymouth Teachers' College with successful experience at Orford and Portsmouth was elected at No. 4.

Mrs. Marion Richner, a graduate of Lowell Teachers' College with several years of successful experience was elected to the position at No. 9.

The district was fortunate in securing the services of four teachers of experience in a period when teachers of training and experience were much in demand. Such a large turnover in staff usually means a long period of adjustment. These experienced teachers soon had the schools operating at high efficiency and with the teachers who returned to their respective schools gave to the district a fine staff of teachers who are contributing greatly to the educational advancement of the children.

Books:—The policy of previous years has been followed in connection with books. Replacements of difficult series and the addition of supplemental reading materials in all schools so as to furnish all types of pupils opportunity to improve their ability to read in accord with their interests and aptitudes has been part of this general policy. Budgetary limitations naturally tend to make this process a gradual one.

No. 9:—The decreased enrollment at No. 9 School has presented a problem in financing the schools of the district. In allocating State aid funds the State Department has felt that the attendance has diminished to the point where it is no longer justified in awarding funds to maintain a school in this district. The difficulties of transporting pupils under present conditions may make it inexpedient to close the school at the present but unless there is an influx of pupils to the district the necessity of closing the school will become increasingly apparent.

Budget

The proposed budget for 1943-44 reveals that the proposed budget is slightly less than that of the previous year. This is largely due to the anticipated decrease in high school enrollment. The demands of our war time economy are in large part responsible for this decrease. It will be noted that several items show an increase. Further study of these items shows that they are all items concerned with personal service or supplies and present conditions seem to warrant such increases. It will also be noted that the estimated cash on hand further decreases the amount of the tax levy.

War and the Schools

The schools are endeavoring to maintain the essential services to the pupils at a pre-war level. With increased demands on teacher and pupil time by our war effort and increasing difficulty of obtaining supplies of all kinds it is evident that this endeavor is difficult of realization. With the continued cooperation of parents, pupils and teachers the schools will do their best to maintain these essential services at pre-war level.

The level of accomplishment in the schools of Londonderry has been maintained thus far in these times only through the fine cooperation of all interested in the welfare of children and the schools. School board, teachers, parents, pupils and citizens have been most helpful and their fine spirit of friendliness is deeply appreciated.

Respectfully submitted,

EVERTON H. PARKINSON,
Superintendent of Schools.
